

Matt Sullivan

Software Engineer • 07999226507 • matt54633@gmail.com • matt54633.com • github.com/Matt54633

As an ambitious and motivated software engineer with prior industry experience in both Web Development and Cloud Engineering, I am looking for my next role to grow, learn and develop my skills further. I am adept at learning new technologies quickly and thoroughly, and can clearly communicate within a wider team. I am driven by a desire to continually improve my own skills and understanding, alongside applying my skills in ways that benefit others.

Achievements

| | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|-------------------------------------------------------------------|---------------|
| Software Engineering BSc (Hons) Bournemouth University - 2024 | 1st | Computing and IT Extended Diploma Strode College - 2020 | D*D*D* |
| Subject Achievement Scholarship - Computing and IT Bournemouth University scholarship awarded due to demonstrating outstanding commitment to my area of study through additional work experience and voluntary work. | | | |
| GCSE Bucklers' Mead Academy - 2018 Computer Science, Mathematics, Triple Science, English Language and Literature, French and Product Design. | | | |

Experience

- Junior Web Developer • QV Systems • 2022-2023
- Engineered cloud-based solutions by utilising AWS to integrate APIs with a proprietary application.
 - Completed the development of Node.js applications, enhancing system functionality.
 - Led the research, design, and implementation of a Robotic Process Automation system, leveraging AWS infrastructure.
 - Revamped internal API documentation, ensuring accuracy and clarity for effective communication.
 - Reduced data entry by 50% and total journey time by up to 300% for a customer finance proposal system.
 - Chaired Employee Representative Group, organising company events and ensuring employee feedback was voiced.
- IT Technician • Huish MAT • 2021
- Collaborated with IT Network Manager across three primary schools.
 - Repurposed IT equipment to optimise resource utilisation.
 - Provided timely IT support to staff members.
 - Developed technical skills and professionalism through hands-on exposure.

Freelance and Voluntary Work

- Worked with a local junior school to conceptualise and produce compelling marketing materials and documentation.
- Engaged in meaningful interactions with staff members to comprehensively understand their needs and expectations.
- Employed attentive dialogue and a deep understanding to craft solutions to exceed their requirements.

Skills

| | | | | | | | | | |
|------|--------|------|-------|----------|-----|--------|-----|-------|---------|
| C# | Swift | JS | HTML | CSS | SQL | Python | AWS | React | Node.JS |
| .NET | Django | Jira | Agile | Firebase | | | | | |

Interests

Outside of work, I enjoy cooking and learning new recipes with my friends and family. I also watch my local football team as a season ticket holder, and have travelled across the country in support of them.

I strive to keep up to date with new technologies, and love to develop my own projects - regularly in new programming languages and frameworks. I have previously volunteered with the Scouting Association, and volunteering in the community has been close to my heart ever since I first started Scouting.
